REQR OF EXPERIENCED TECH AND SCREENING OUT FROM ANNUAL POSTING FOR MIG-29 AND F-7 SERIES AC

Refs:

- a. DGDP Contract No 272.208.18 dt 29 Jun 23.
- b. DGDP Contract No 272.180.22 dt 07 Nov 24.

1. 04 X MiG-29 B/UB ac are now under OH (ref B) which are expected to be received by Oct 25. Meanwhile, 04 X MiG-29 B/UB ac are now under op after modernization vide ref A. A good number of techs were trained on the ac sys as well as modernized sys of MiG-29B/UB ac for different durations from overhauling plants in Belarus/Russia. However, those techs were posted out of MiG fleet within six months after the trg owing to admin reqr. As such, their trg couldn't impart fruitful value to the maint practices and expertise of the MiG fleet. Similar sit is also obsn in F-7BGI ac. In this regard, those trained pers may be planned for posting in BAF BBD for best ut of their expertise and trg values. The list of such tech is enclosed herewith as ready ref as annex A.

2. Addl, within the aval techs of the MiG-29 and F-7 series fleet there are only a few tech who have considerable experience and expertise in respective ac. 04 X MiG-29 ac and 03 X F-7 BGI ac under OH are expected to be received within Oct 25. In this condition, it will be challenging to continue the maint func smoothly if the remaining skilled tech also get posted out. As such, it is req to keep a few skilled tech from MiG-29 and F-7 series ac out from annual posting plan (list att as Anx 'B').

3. In view of above, nec arng may be made for posting of the airmen mentioned in Anx A to BAF BBD and screened out the airmen mentioned in Anx B from annual posting.

4. Sent for kind info and nec act.
